

Making a Survey

GAC 005: Computing I
Unit 5B

Unit Goals

By the end of this unit, you should be able to:

- Share your presentation and ask for audience feedback
- Enhance your presentation with graphics, surveys, etc.
- Use different survey software
- Use different infographic software

Before We Begin...

You did not do your homework!

Check your email for an invitation to a Github repository.
That will give you the group assignments.

Last week's HOMEWORK:

With your group, select an NPO
that you would like to research.

Interacting with Your Audience

Questions:

- How can a survey improve my presentation?
- How can I add surveys to my presentation?
- How do I interpret the results of a survey?

Lesson goals

By the end of today's lesson, you should be able to:

- Create a survey and collect answers.

What Is a Survey?

noun: survey; plural noun: surveys

/'sər,vā/

an investigation of the opinions or experience of a group of people, based on a series of questions.

- A scientific collection of data
- A tool to help make decisions

Online Survey Tools

- Only one of the tools works in China
- Sign in to limesurvey.org
 - Create a user account name
 - Give it the same email you are using for class
 - You will need to confirm the email
- Start creating surveys!
- *Note: you only need one survey account per team*

Make a survey

- Log in to your account at LimeSurvey
- Create the survey
 - Do people know about your NPO? (Be specific!)
 - Have they helped/worked with this NPO before?
 - If not, what would it take to get them to participate now?
 - Ask other questions...
- Save the URL in Github

What should everyone else on the team be doing?

HOMEWORK:

1. Make the basic survey
2. Start researching your NPO. Find this information:
 - Name of organization
 - Founder? When?
 - What do they do?
 - How do they help?
 - How can I help?

Use at least three sources!
