

Enhancing Your Presentation

GAC 005: Computing I
Unit 5

Unit Goals

By the end of this unit, you should be able to:

- Share your presentation and ask for audience feedback
- Enhance your presentation with graphics, surveys, etc.
- Use different survey software
- Use different infographic software

Interacting with Your Audience

Questions:

- What makes a presentation engaging for the audience?
- Have you ever attended an oral presentation where the audience actively participated?
- Have you ever answered a survey as part of a presentation?

Lesson goals

By the end of today's lesson, you should be able to:

- Use tools that help you interact with the audience
- Explain how surveys can help your presentation

Tips for Audience Engagement

1. Take questions during the presentation
2. Poll your audience
3. Use activities to reinforce your points
4. Collect feedback at the end

Would You Like to Take a Survey?

- A research method to gather information
- Know people's opinions
- In-person or electronic
- Alternative: a focus group

AE4 - Perform a Survey (Student instructions)

Your task is to create a presentation and a survey, apply it and then present the survey results.

The presentation will be about a non-profit organization that helps the environment, children, animals, etc.

The main goal is to find out why and how people get involved with NPOs.

What does that mean? Step 1:

- Pick a NPO
- Research them
 - Name of organization
 - Founder? When?
 - What do they do?
 - How do they help?
 - How can I help?
 - Use 3+ sources

What does that mean? Step 2:

- Make a presentation
 - Tell us what you learned
 - Include 2+ images
 - Save it in Github

What does that mean? Step 3:

- Share your presentation
- Perform a survey
 - Do people know about your NPO?
 - Have they helped/worked with this NPO before?
 - If not, what would it take to get them to participate now?

The Twist: Step 4:

You will use this information to make a 3-4 minute advertisement for the NPO your group chooses.

This will replace the assignment for AE5.

Get in Your Groups

Check your email for an invitation to a Github repository.
That will give you the group assignments.

HOMEWORK:

With your group, select an NPO
that you would like to research.
